

(4) a field programmable gate array[.];

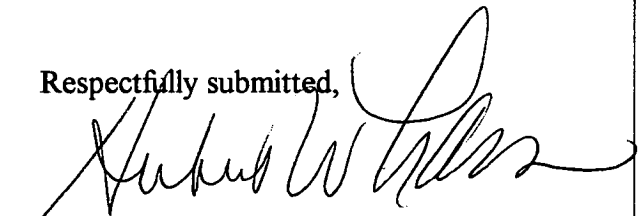

the system including a central station computer in direct
communication with the body-worn device, the computer containing an
algorithm for comparing a current location of the body-worn tracking device to
a schedule of rules and location restraints to determine if a violation has
occurred.

Remarks

Applicant has amended all his claims to include the limitations of claims 2 and 13 which have been deemed to be allowable. Claims 2 and 13 have been cancelled as now being redundant.

It is believed that all of claims 1, 3-12 and 14-18 are now in condition for allowance. Such action is earnestly solicited.

Respectfully submitted,

Herbert W. Larson
